Retrieving Patient Details on the IOL Master 700 from the FORUM database:

1. Use the search function in the top left hand corner, search and highlight the patient, details appear on the right

How to retrieve data in FORUM

1. Find your patient under 'Patient Directory' to view the new data for that patient.

<u>Troubleshooting:</u>

Occasionally the IOL Master 700 will fail to send data back to FORUM, this may in effect "clog" the line and you may be unable to send future tests back to FORUM, to fix this you can use the 'Export' button located in Settings \rightarrow Network \rightarrow Scroll to Manual Data Export \rightarrow Export button
